Foreword

*S.V. Subramanian, Professor of Population Health and Geography,
Harvard School of Public Health*

Acknowledgements

Section I: The long view

- 1 Unequal health: why a scandal, and why now?
- 2 The long view: from 1817 to 2012
- 3 The ghost of Christmas past: health effects of poverty in London in 1896 and 1991
- 4 Infant mortality and social progress in Britain, 1905–2005
- 5 Who cares in England and Wales? The Positive Care Law

Section II: The liberal record

- 6 Paving the way for 'any willing provider' to privatise the NHS
- 7 Health inequalities and New Labour: how the promises compare with real progress
- 8 Closer to equality? Assessing New Labour's record on health after 10 years in government
- 9 Social harm and social policy in Britain
- 10 Inequalities in premature mortality in Britain: observational study from 1921 to 2007

Section III: Medicine and politics

- 11 Medicine is a social science and politics is nothing else but medicine on a large scale
- 12 Time for a smoke: one cigarette is equivalent to 11 minutes of life expectancy
- 13 Private finance: 'Select Committee's report used parliamentary privilege unacceptably'
- 14 Government cover-ups: Labour's 'Black Report' moment
- 15 Putting the sick to work: the real mental health bill
- 16 Losing votes and voters: would action on inequality have saved New Labour?
- 17 Mapping inequalities in Britain
- 18 London's political landscapes

Section IV: Despair and joy

- 19 Preserving sanity when everything is related to everything else
- 20 Suicide: the spatial and social components of despair in Britain, 1980–2000
- 21 How suicide rates have risen during periods of Conservative government, 1901–2000
- 22 The inequality hypothesis: thesis, antithesis and a synthesis

UNEQUAL HEALTH

- 23 Housing and identity: how place makes race
- 24 Border controls? Here's a long line of reasons to relax
- 25 'Poor kids', interview with Kerry O'Brien, Australian Broadcasting Corporation

Section V: Global inequality

- 26 Less suffering
- 27 How do the other four fifths live?
- 28 Global inequality of life expectancy due to AIDS
- 29 Life expectancy: women now on top everywhere
- 30 Mortality in relation to sex in the affluent world
- 31 Anamorphosis, the geography of physicians, and mortality
- 32 The global impact of income inequality on health by age: an observational study
- 33 Wars, massacres and atrocities of the 20th century
- 34 Re-evaluating self-evaluation. A commentary on Jen, Jones and Johnston
- 35 America's debt to the world

Section VI: Thinking, drawing and counting

- 36 It's the way that you do it
- 37 Worldmapper: the human anatomy of a small planet
- 38 Using statistics to describe and explore data
- 39 Socio-demographic diversity and unexplained variation in death rates among the most deprived areas in Britain
- 40 What if it were not the custard cream that did for them?

Section VII: Ageing and health

- 41 Growing old gracefully
- 42 Measuring the impact of major life events on happiness
- 43 Roads, casualties and public health: the open sewers of the 21st century
- 44 Tackling global health inequalities: closing the health gap in a generation
- 45 How will we care for the centenarians of the future?
- 46 We're all ... just little bits of history repeating
- 47 Future people and shifting power
- 48 Looking on the bright side
